

# CULE II **FREAKING** Miracle **WORKERS**

Below is a picture of a water fountain that I have had on my desk for many years. After an extremely hectic day a few years ago, I recall throwing my hands in the air and loudly exclaiming: “What do they think I am, a freaking miracle worker?”

A short while later, I decided to label the water fountain. Taking this a step further, I brought stickers to the PSAC Ontario Staff Conference in 2016 for the entire administrative team. The stickers were a hit! At the PSAC Ontario Staff Conference in 2017, we had buttons for all CULE members in Ontario.

I truly believe that each of us who works within the PSAC is indeed a "miracle worker" and none more so than the administrative staff who support the Regional Offices, the Regional Representatives, the Regional Council members in their work and the entire membership of the PSAC.

I understand the environment we all work in. I understand it can be stressful and frustrating, and I understand that we are constantly asked to go “over and above”. There often seems to be an expectation that we are indeed “miracle workers”.

In a work environment like ours, it is essential that we work together and that we hold each other up. This is how we will all not only survive, but thrive moving forward.

I hope that you will consider voting for me in my bid for the VP CULE II seat on the CULE Executive.

I will always do my best to ensure that you, the members, are fairly represented with a strong voice, a level head, and a sense of humour.

Thank you and in Solidarity,

Kellie Loshak
